

# The Theory of Everything

## Lesson 10: The Bound World

*The world of Akudim as a prototypical model for reality where existence may either "appear" or "not appear."*

### **Akudim = Stripes = "The Bound World"**

#### **NINTH DIMENSION = APPEARANCE**

The Two Extremities of APPEARANCE are REVELATION and CONCEALMENT

As opposed to the world of nekudim where the extremes are "to be" or "not to be," the extremes of akudim are merely "to appear" or "not to appear" -- existence, however, is not at stake.

**Akudim and Nekudim = Stable Chaos and Unstable (Total) Chaos**
