

The Theory of Everything

Lesson 12: String Theory & Kabbalah

Uncanny similarities are noted between the Hyperspace Dimensions of String Theory and the Ten Sefirot of Kabbalah.

Ten "Hyperspace" Dimensions

Aside for the four dimensions of time-space, all other dimensions are concealed dimensions.

The Ten Sefirot = The Ten Utterances of Creation

$$10 = \text{'}$$

The letter ' spelled out is ט-ו-י which are 10, 6, 4 which are 10 Dimensions of Reality subdivided into 6 Hidden Dimensions and 4 Revealed Dimensions.

"Ten and not nine; ten and not eleven." -- Sefer Yetzirah

Either Keter OR Da'at can be the Tenth Sefira (not both)

Keter = Unconscious Perspective

Da'at = Conscious Perspective

A possible ELEVENTH DIMENSION would be the co-existence of Keter and Da'at together symbolized by the Igul HaGadol (Great Circle.)
