

# The Theory of Everything

## Lesson 9: The Worlds of Emanation & Chaos

*The highest world of Atzilut introduces a unique "G-dly" dimension to reality. Beyond that lies the realm of primordial chaos, source of the "Shattering of the Vessels."*

### SEVENTH DIMENSION = "G-DLINESS"

"G-dliness" as opposed to "spirituality" is uniquely Jewish. It is pure consciousness of G-d -- a seventh dimension of reality -- which contains within it all of the previous Six Dimensions.

7 = Shabbat = G-d-Consciousness within the lower dimensions

**Two Extremes of the Seventh Dimension of G-d-Consciousness = Man and Beast**

"Adam" (Man) = "I will resemble (or emulate) the One on High."

**ATZILUT = "EMANATION" or "NEAR"**

**Above Atzilut is the eight-dimensional reality of Nekudim -- literally, "the world of points."**

**Eight Edomite Kings in the Eighth Torah Portion (Vayishlach)**  
**"...and he will rule, and he will die."**

Shattering of the Vessels takes place in this world, which is also called Tohu or "the world of chaos."

### EIGHTH DIMENSION = CHAOS

The two extremities of CHAOS are "TO BE" or "NOT TO BE" (all or nothing)
